

### **Post Sign Up**

- Contact pax when itinerary received, but at least 24 hrs before flight; confirm pick up location (a/p and FBO), weights; provide contact info
- If linking mission, contact linking pilot(s); confirm pick up a/p & FBO and contact info; agree on alternate airport if necessary
- 3. Communicate any changes to AFE Staff

## Day of Flight

- Provide patient with updated ETA, if expected to be substantially different
- If this is first flight in GA plane, provide reassuring, but realistic expectations for flight.
- 3. Stress need for sterile cockpit at busy times
- 4. Review sounds unique to your plane (chimes, gongs on changes in settings, altitude, thud when gear goes down, locks, prop pitch changes etc)
- 5. Safety Review (general safety on tarmac, how to enter/exit plane, emergency exit, use of seat belt, headset, etc.)

## In Flight

- 1. Sterile cockpit reminder on takeoff/landing environment
- 2. Use judgement when/if to engage pax in operation of plane; landmarks if VFR

### **Post Flight**

- 1. Pictures for AFE
- Escort pax to terminal/FBO ops, as appropriate
- 3. Submit pilot report on VPOIDs

# In case of emergency: Call (215) 358-1900
